This brochure was developed to provide you with information about the Counseling program so that you make an informed decision about allowing your child to participate in it.

The purpose of the LMS Counseling Program is to assure that Larned Middle school students will acquire and demonstrate knowledge of self and others, competencies in career exploration, and educational/career-technical development as they learn to live, work, and learn over their lifetime.

The mission of Fort Larned USD 495 is to provide and support a positive learning environment, enabling all students to reach their highest potential.

In order for students to reach their highest potential, our counseling mission is to assist each student to develop the knowledge, skills, values and attitude needed to reach their full potential as productive members of society.

The ultimate goal of the counseling program is that each student will graduate with the personal, academic, and career related skills and knowledge to be able to make self-directed and realistic decisions in an increasingly complex world.

To achieve this goal, the counseling center is an integral part of the school educational system.
